**ADMINISTRATIVE LAW JUDGE'S RULING  
GRANTING MOTION TO FIND PROTECTIVE ORDER  
APPLICABLE TO ADDITIONAL MATERIALS**

On November 12, 2004, Southern California Edison Company (SCE) filed a motion to find the protective order adopted by an administrative law judge ruling, dated May 21, 2004, applicable to the following materials:

1. Confidential materials concerning Combustion Engineering, the manufacturer of San Onofre Nuclear Generating Station Units 2 & 3 (SONGS 2&3) original steam generators, and steam generator problems at SONGS 2&3 or Palo Verde Nuclear Generating Station Units 1, 2, & 3);
2. Documents prepared by EPRI, subject to confidentiality agreements with EPRI;
3. Documents prepared by the Westinghouse Owners' Group (WOG) or the Combustion Engineering Owners' Group (CEOG), subject to confidentiality agreements with WOG or CEOG;
4. Documents containing specific locations of important electric facilities that SCE cannot release to the public to protect the security of those facilities; and

5. Documents showing estimated costs of transmission system components that, if released, could give vendors a competitive advantage over SCE in negotiations to purchase these components.

The materials discussed above merit confidential treatment because they are the subject of confidentiality agreements, involve potential litigation, or their release could jeopardize facility security or give vendors a competitive advantage over SCE in purchase negotiations. Therefore, I will grant the motion.

Therefore, **IT IS RULED** that the motion of Southern California Edison Company (SCE), dated November 12, 2004, to find the protective order, adopted by an administrative law judge ruling dated May 21, 2004, applicable to the materials identified therein is granted.

Dated November 19, 2004, at San Francisco, California.
